

■ Temperature dependent photoluminescence of photocatalytically active titania nanopowders
H. Bieber, P. Gilliot, M. Gallart, N. Keller, V. Keller, S. Bégin-Colin, C. Pighini, N. Millot, *Catalysis Today*, 122 (2007), 101.

■ High Precision Volumetric Gas Adsorption Apparatus
K. Nakai, J. Sonoda, H. Iegami and H. Naono, *Adsorption*, 11 (2005), 227.

■ An approach to carbon nanotubes with high surface area and large pore volume
J.J. Niu, J.N. Wang, Y. Jiang, L.F. Su, J. Ma, *Microporous and Mesoporous Materials*, 100 (2007), 1.

■ An approach to carbon nanotubes with high surface area and large pore volume
K. Yamamoto, S.E. Borjas Garcia, A. Muramatsu, *Microporous and Mesoporous Materials*, 101 (2007), 90.

■ Preparation of gold catalysts for glucose oxidation
C. Baatz, U. Prüße, *Catalysis Today*, 122 (2007), 325.
